**Shout out to the  
St. Paul Teachers and Students!**

Iowa Tests of Basic Skills scores are in and have been analyzed. Children in grades 3-6 are tested in all subject areas every year. Each grade level has improved their scores from the previous year! This is all due to excellent teachers at all grade levels, hard working students and supportive parents! Thank you for practicing math facts with your children, reading with them and helping with homework! Hard work pays off! I know the teachers are using new techniques to help the children thoroughly understand the concepts. We feel it is paying off. Kudos again to the students and teachers of St. Paul!
